President's Message

I named my first Shetland pony "Grey Ghost" after an equine character in the beloved Walter Farley book series. I remember my dad helping me catch her from the muddy field (as she spun around & kicked at me) & harness her (as she reached back with bared teeth & dug into my arm). I learned a lot from that pony & loved her with all my heart. Fast forward 40 years & now I'm helping my 6 year old daughter as she catches her much sweeter pony & harnesses her with help from a little folding stool. She loves driving Heidi with the same enthusiasm I did my pony.

CDS is fortunate to finally have some events with which we can showcase our enthusiasm for driving! July 19, the 20 Mile CDT was turned into a very successful Fun Day at Salisbury Park. People & horses alike were thrilled to be out trying their skills at organizer, Sara Swearingen's, cones course & the casual drive through the obstacles. This has also been a great opportunity to enjoy the Rocky Mountain Carriage Club's hospitality as they have hosted several driving events up North. As we publish this newsletter, drivers are gearing up for Terri Miller's Picnic Drive at Bear Creek on August 1st. The Navigator's Clinic with Denise Loewe is being rescheduled from Sat, Aug 8th to Sat, Aug 22nd at Sandy Clayton's farm. Stay tuned for more information via email. As we head into September, the Derby & the CDE have both been cancelled, but the Thorsten Zarembowicz clinic will be Labor Day weekend at Erik & Mary Jensen's Thistle Hill Farm as well as carrying on the next weekend at Silver Whip in Ft. Collins. Contact Kris Jensen or Pam Richardson Davenport to secure a lesson slot.

The CDS Board (6:00pm) & Membership Meeting (7:00pm) will be held IN PERSON at Sandy Clayton's farm on Thurs., Aug 13th. Sandy is a pro at enforcing social-distancing & ensuring a high level of anti-

Fun Day and Members in the News

There were 10 turnouts at our "Fun Day", held in lieu of the Twenty-Mile competition! Thanks a load to Sara Swearingen and her team for setting up a fun cones and obstacles course! We didn't get very many pictures of people in action, as we were all

busy playing!
RMCC has host-

Terry Miller and Tammy Taylor

Kelly Stanton with Gary and Connie Sandvik leading at Salisbury Fun Day

ed another Two-Phase event, and has other activities coming up as well. Check out the calendars! There has been a lot of driving going on around the State, even if we are limited in our "officially" organized activities. If you'd like to be included in the "Members in the News" - please send some good photos and a quick description of what you're up to via FB messenger to Kelly Stanton, or via email @ KellyL97@gmail.com.

Terry Miller, Amanda Halvorsen, and Gary Sandvik at the helm(s) at the Fun Day

Consequences of Driving High

Andy Marcoux

Reprinted from July 2017

I love altitude. Of course, usually, when I'm talking about altitude, I'm talking about "AGL" (above ground level.) For Memorial Day weekend this year, I managed to spend the entire weekend above 6,000 feet without ever leaving the ground. That's a pretty good trick, but it's just everyday life for those on the high plains of Colorado.

I spent the weekend in Colorado with members of the Colorado Driving Society, and the Rocky Mountain Carriage Club. CDS President Al Senzamicci organized and hosted the weekend at his place in Peyton, Colorado. So far this year, this clinic gets the award for "Most Breathtaking Backdrop" with snow-covered Pike's Peak standing in the background.

The variety of horses, ponies, and drivers made the clinic lots of fun for me. There were all experience levels from the very novice to very experienced both of horses and drivers. We had three people driving pairs, many singles, and even a few long lining lessons.

"Understanding Contact" seemed to emerge as the most common thing that I worked on with the drivers there. Years ago, I'd spend all day trying to teach people how to let go of their horse's faces as they drove. For this clinic, I spent a lot of my time trying to teach people how to pick up enough contact to get the

results we were after.

This experience isn't unique these days. We all count our horses among our best friends, so we don't want to do anything that would be uncomfortable for them. With that in mind, many people are hesitant to "pull too hard" on the reins. While based on the horse's best interest, that thinking has its downfalls.

Think of it like this: When we were kids, one of the little games we played was making a "telephone" out of a couple of tin cans and some string or wire. I remember being fairly skeptical that this little experiment would work as we built this little contraption. After all, how would a couple of soup cans and some wire transmit my brother's voice to me across the house?

When we got the cans and the wire all rigged together, my suspicions were confirmed. With the wire between the cans loose on the ground, my brother's voice barely reached the can I was holding as a distant indistinguishable murmur. Then our father instructed us to carry our soup cans to opposite sides of the house, pulling the wire between them taught as we did. To my surprise, I could hear my brother's voice in my soup can, even as I stood three rooms away down the hall!

How does all of this relate to contact with your horse? Well, your reins are the wire between the soup cans. If they are left slack, the communications you put down the reins simply dissipate as they travel down the rein, only reaching your horse's bit as a distant murmur. When you take the slack out of the rein, movements you make with your hands equate to movements on the bit, which of course equals communication.

Of course, this leads everyone to ask, "How much weight should I have in the rein?" That's where things get a little tricky. The short answer is, "enough to keep the reins straightened between the harness and your hand, but not so much that you're pulling on your horse." That falls far short of a complete answer. The variables that go into finding the right contact are too lengthy to list here.

We spent the weekend using various lesson plans and activities to help both horses and drivers find their "happy place" of contact. Of course, we worked on more things than just establishing the right contact.

Al transformed his back yard into a dressage arena that included a couple of trees and some mild pitch at one end. Anyone can work horses in a ring without terrain and obstacles! It takes good driving to get your ponies around a ring like that as if those challenges didn't exist. We used the ring to work on planning out their figures balancing their horses for turns and transitions.

The weather moves quickly on the high plains, so we had to retreat to the indoor ring frequently as the weather moved through the area. In fact, the weather moved so quickly that one lesson in the indoor would be followed by a lesson outside, then we'd get chased back

under cover. I think I came home with as many pictures of the weather as I had pictures of ponies!

The group of about a dozen drivers wasn't deterred by the weather. Everyone remained engaged and enthusiastic throughout the clinic. The majority of drivers took several lessons throughout the 4-day clinic. That really gave us lots of opportunities to build one successful lesson upon the next.

I think before we even started we were talking about making plans for a follow-up clinic later this year. Now it's just about finding dates and choosing the location to have the next clinic. I, for one, can't wait to get back to

see all of the drivers and ponies I met there. What a great group to work with!

Al Senzamici says:

We enjoyed the clinic so much and we are looking to have Andy return as soon as possible to keep the momentum of our learning going. I have had so many of our clinic participants comment on how great it was and how much it tied all of Andy's webinars together with his lesson plans. The hands on and in person training just gave everyone that little "boost" beyond the webinars and lesson plans. You received immediate feedback and corrections when following the plans. It also showed that no matter what level you are currently at sometimes you need to step back to improve on one of your basic skills. Looking forward to

watching my next webinar tomorrow night and getting Andy back out here to Colorado (during better weather conditions) so he can more fully enjoy the beauty of the state.

Rita Nothstein

Kris and Erik Jensen

NAVIGATOR'S CLINIC

Saturday, August 22, 10am to 3pm

Cost \$45 to enter, \$15 to Audit

Join us for a fun day of learning, no horses allowed! Come prepared for a fun day of learning, focused on you as the navigator only—no horses will be used! We will be pulling the carts with 4-wheelers to allow the humans to just focus on their learning. Bring your driver and navigator, your own chair, drinks, lunch, and social distancing will be expected.

Our instructor, Denise Loewe, has been navigating for several upper level drivers for the past 6 years. She has navigated for winning drivers in the Preliminary, Intermediate and Advanced divisions at Live Oak for the past 5 years in a row. Denise has also gatored at many other CDE's throughout the Midwest, East Coast and Florida:

Southern Pines CDE, Katydid CDE, Black Prong CDC and Pine Tree CDE at Little Everglades to name

a few. She also has been driving and competing her own horses since 2007, currently owning two young equines, an up and coming 4 year old Welsh Sec B gelding just starting his career, winning at the training level in Florida and Iowa this year, and a second, his 1/2 Brother 4 [year old Welsh Sec B](#) Pony.

Denise at the 'gator

We will utilize 4-wheelers instead of horses to facilitate a great learning experience!

Thorsten Zarembowicz Clinic

September 6-7, Erik & Mary Jensen's Farm, contact Pam Richardson or Kris Jensen

September 11-13, 2020 Silver Whip Farm, Fort Collins, CO , contact Denise Loewe 515-418-7013 or Flswissy@yahoo.com

Thorsten will be back in Colorado for another set of Clinics in September 2020! He has graciously agreed to return, those of you that participated last year -we hope you'll plan on participating again! Limited stall space can be arranged at Silver Whip. Thorsten really encourages participants to take multiple lessons for consecutive days to dig deep into helping you and your horse develop into the best team possible! Preference will be given to participants who choose multiple slots. Price per lesson \$150. Thorsten's passion is driving horses. Nothing would stop him from pursuing his driving career, even if that sometimes meant having to drive whatever horse was available. But with persistence, and the training from Michael Freund, he quickly learned the skills necessary to bring horses to the international level. After conquering the single horse competition by becoming World Champion 2010, as well as the 2013 World Championship Silver Team medal for Pairs. Luck for us, 2014 Thorsten was hired as the USEF Team Driving Coach. He now runs his business Zarembowicz Sport Horses with his wife Allison, who trains and competes young horses in the ridden dressage sport. Zarembowicz Sport Horses is based in Ocala, Florida.

Accomplishments: 2004: 5th place German National Pair Horse Championship

2005: Reserve German National Single Horse Championship

2006: Bronze Team Medal Single Horse World Championship

2008: German National Single Horse Champion

2008: 8th place Single Horse World Championship

2010: Team and Individual Gold at Single Horse World Championship

2011: Reserve German National Single Horse Champion

2012: 1st place at the International driving competition in Lahden

2012: Reserve German National Pair Horse Championship

2013: 4th place German National Championship

2013: 1st place CAIO Riesenbeck

2013: Silver Team and 8th Individual World Championships Pair Horses

2014: Beginning of season sold experienced horses, new start.

2015: Developing Driver Coach Team USA

2016: United States Equestrian Federation Combined Driving Coach

4 WHEEL MARATHON/ DRESSAGE CARRIAGE

Custom designed Ahonen four-wheeled carriage. Has independent shafts. Black, with brown vinyl seat upholstery. Beautiful oak dash and side panels. Fittings are chrome. The carriage has two seats: one bench seat that can be used for dressage or pleasure shows, and a wedge seat that can be easily exchanged for marathon. The pleasure type shafts are warm-blood/small draft length. The marathon shafts can be used for smaller horses or even a large pony. Rear disc brakes. The carriage has an

expandable rear axle, FEI width for marathon and cones. Front wheels are attached with a 5th wheel. This allows for tight turns and eliminates accidents if the horse backs out of control. Each wheel is sprung independently by a torsion bar axle; this helps smooth out the ride. The vehicle looks classy enough for a pleasure show and is tough enough for a hardcore marathon. A very versatile and safe carriage. \$3,999.00

HARNESS: Single horse hames style, heavy duty. Includes leather bridle and 19" collar. Harness made out of Beta (webbing covered with plastic) that feels and looks almost like

All members are encouraged to attend bimonthly membership meetings in February, April, June, August, and October.

Next CDS Meeting: Thur Aug 13

6:00 CDS Board

7:00pm General Membership Meeting –
“What Dressage Judges look for” by KC Kyle

Get more involved with CDS . . .

We're still looking for someone to fill one critical position:

- **Volunteer Coordinator—** Contacts coordinators for the various CDS events to see how many and what kind of volunteers are needed for their events, then contacts club members and others to see who can fill which positions.

And — until we have a volunteer coordinator — contact individual event coordinators (see the calendar) to offer to help out at events of your choosing. It's a great way to meet more club members and to learn more about how each of the events works.

Event Organizers . . . If your event is at Salisbury Equestrian Center, consider saving some money by anchoring your event at the east side of the polo field in order to use the permanent porta-potty by the white arena rather than renting a porta-potty (at the cost of \$150).

Reminders for Event Organizers:

1. Guidelines for organizers, a sample budget, and reimbursement forms are available from the event coordinator (below).
 2. Three months before your event, submit a budget to the CDS board of directors through the event coordinator. *No publicity for an event will be released until the budget has been approved.*
 3. Once your budget is approved, please submit a description of the event to the newsletter editor. Include event title, location, date, time, rain date, fees, organizer, details of the event, closing date for entries & where to send entry form and fee. (Please send content with minimal formatting. We'll take care of the layout.)
 4. For help recruiting volunteers, contact the volunteer coordinator (below) two months prior to the event with a list of the positions to be filled (set-up, scribe, timer, cone setters, volunteer judges, announcer, photographer, etc.)
 5. Arrange for a volunteer to take photographs or contact the newsletter editor about photographs.
 6. After your event, please send a report about scores, awards, number of entries, etc. to the newsletter editor.
 7. To be reimbursed by the club for any expenses you incur, you must provide a receipt and a CDS reimbursement form, available from the event coordinator.
- Items that are donated require a receipt for the value of the item and the word "Donated" written on the receipt for tax purposes. This can include a judge's fee if the judge normally charges but chooses to donate the service to CDS.
